Employee Observer

```
+getEmployeeName(Employee employee)
+setEmployeeName(Employee employee,String name)
+getEmployeeIDNumber(Employee employee)
+setEmployeeIDNumber(Employee employee, int idNumber)
+getEmployeeJobTitle(Employee employee)
+setEmployeeJobTitle(Employee employee, String jobTitle)
+getEmployeeSalary(Employee employee )
+setEmployeeSalary(Employee employee, Double salary)
```

Employee

```
- name:String
- idNumber:int
- jobTitle:String
- salary:Double
-ArrayList<Observer>
```

```
+getName()
+setName(String name)
+getIDNumber()
+setIDNumber(int idNumber)
+getJobTitle()
+setJobTitle(String jobTitle)
+getSalary()
+setSalary(Double salary)
-updateObserver()
```

Employee Viewer

```
+displayEmployeeInfo()
```
